WESTERN TOWERS

General Terms & Conditions of Sale

1. This quote does not include sales tax, permits, fees, or bonding unless specifically noted. Western Towers does not collect sales tax for most states, so it is the buyer's responsibility to pay the sales/use tax in those states. Sales tax, if included on the quote but is not applicable, will be removed if buyer submits a valid sales/use tax exemption certificate to Western Towers.
1. Installation services, if quoted, is based on normal access and site and soil conditions. Site access and soil conditions outside the norm will be subject to additional costs.
2. By accepting this quote, the customer also accepts the applicable steel escalation policy in effect as of the date of this quote. This policy is available upon request.
3. Quote will be invoiced at the earlier of the original due date or the actual ship date.
4. Storage fees will be assessed monthly at \$1.00 per tower-height foot for product stored thirty (30) days past the original due date unless an extension is requested in writing and approved by Western Towers.
5. The engineering fee in this quote, if applicable, allows for one (1) conceptual design change by the customer. Changes beyond that allowance will incur additional engineering fees to be assessed by the degree of the requested design change. Includes PE stamp for (1) set of tower and foundation drawings. Additional prints and stamps available upon request at additional costs. Preliminary tower and foundation designs are conceptual only and are subject to final design changes which may affect the final costs. The buyer is responsible to arrange and pay for all costs to obtain PE stamped drawings for locations outside the USA.
6. Unless agreed to buyers' specific routing instructions, freight will be pre-paid and added to the invoice, FOB- Origin to a continental U.S. destination, and will be billed at actual cost plus 5% for processing if shipping & handling charges are greater than the originally estimated due to increased tariffs, fuel surcharges, or other accessorial fees imposed by the carrier.
7. For shipments outside the continental U.S., Western Towers will deliver to a U.S. port, but buyer will be responsible for offloading the truck and for all shipping arrangements and costs thereafter to the destination.
8. Unless otherwise agreed to, payment terms are Net 30 with approved credit. Purchases under \$1,000 without Purchase Order must be paid with a credit card. Towers purchased with installation services are subject to progress payments.
9. Payment for new customers will be 100% in advance unless credit is approved for Net terms. Special orders and orders shipping outside the continental U.S. will also be subject to prepayment.
10. For guyed-tower quotes, the preliminary design assumes level ground in the calculation of the guy wire lengths. Guy anchor locations on slopes may require additional guy wire lengths, so buyer will verify and convey additional guy wire length requirements at the time of order. If the guy wire lengths increase from the preliminary to final design, the additional costs will be invoiced to the buyer.
11. Unless otherwise stated, guyed tower price includes tower structural steel, base pin, anchor weldments, torque arms (if applicable), climbing and waveguide ladders (integrated on all-welded section models), and beacon mounts (if applicable). Other mounts are available upon request at additional costs. Tower hardware kit (for guyed models) consists of assembly hardware, anchor bolts, 4' lightning rod, safety climb kit (without harness), guy wires, and guy hardware. Insulated guys and hardware are available upon request at additional costs.
12. Unless otherwise stated, self-supported tower price includes tower structural steel, leg-to-leg template, climb ladder (1-face), waveguide ladder (1-face) (ladders are integrated on all-welded section models), and beacon mounts (if applicable). Antenna mounts are available upon request at additional costs. Tower hardware kit (for self-support models) consists of assembly hardware, anchor bolts, 4' lightning rod, and safety climb kit (without harness).
13. Lead times are approximate and are subject to change.
14. The buyer agrees to review and verify the tower and foundation design drawings and other quoted items meet or exceed the design requirements as specified in their Request for Proposal, Statement of Work, or Tower Request Form prior to purchasing. The buyer agrees to pay for any changes to the designs or bill of materials quoted that result in additional costs.
15. By accepting this quote, the buyer also accepts all the terms and conditions of sale. For more information contact Andy McCleer at (325) 269-2160 or andy.mccleer@westerntowers.com.

First Responder Communication Tower Resolution

WHEREAS, Rains County finds it in the best interest of the citizens of Rains County that the new first responder communication tower be constructed at the TXDOT location on Highway 69 in Emory, Texas.

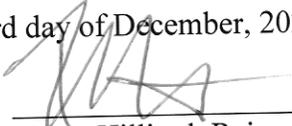

WHEREAS, Rains County agrees to pay \$129,657 for its contribution to the tower build, and TXDOT agrees to pay the remaining costs, including labor, generator, shelter, cables, maintenance, and all related tower expenses; and

WHEREAS, Rains County will use all of the \$600,000 SERI grant towards the radio and radio infrastructure portion of this project; and

WHEREAS, Rains County designates the Rains County Judge as the grantee's authorized official. The authorized official is given the power to apply for, accept, reject, alter, or terminate in relation to the radio project on behalf of the County.

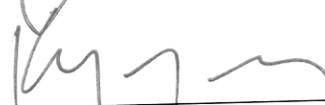

NOW THEREFORE, BE IT RESOLVED that Rains County approves the payment of \$129,657 for the communication tower.

Passed and Approved this 23rd day of December, 2025.

Brent Hilliard, Rains County Judge

Jeremy Cook, Commissioner Precinct 1

Mike Willis, Commissioner Precinct 2

Korey Young, Commissioner Precinct 3

Lori Northcutt, Commissioner Precinct 4
