

Subject: Agenda Item # 17
Rains County Clerk- Mandy Sawyer

- Discuss accessibility improvements to the Rains County Courthouse Annex building to better accommodate individuals with disabilities.
- The proposed discussion would include adding an additional designated handicap parking space, installing a handicap-accessible ramp, and evaluating modifications to the front entrance doors so they open inward. These improvements would help ensure that individuals using wheelchairs, walkers, or other mobility aids can safely access the building without difficulty or risk of injury, particularly when entering from the curb area.

Improving accessibility is an important step toward ensuring that all Rains County citizens are able to safely and independently access public services provided within the Rains County Courthouse Annex building.
