Great For

- Offices
- Schools
- Public spaces
- Airports
- Healthcare settings
- Emergency responders

Configurations

- Semi-Automatic or Fully Automatic models available
- Single or Dual Language options
- Wi-Fi or USB connection options

Key Features

- **ClearVoice® technology:** Provides calm, step-by-step guidance, adjusting to background noise levels
- **cprINSIGHT™ Technology:** Reduces pauses during CPR by analyzing rhythms while compressions continue, making it the only AED that allows chest compressions during ECG rhythm analysis
- **Bilingual mode:** Allows rescuers to toggle between two languages (Wi-Fi model)
- **Pediatric rescues:** Quik-Step Electrode Pads enable quick placement for both adults and children; Child Mode eliminates the need for separate pediatric pads for faster rescues
- **Escalating energy shocks:** Increases effectiveness of defibrillation with higher energy levels as needed

Additional Features & Details

- **Remote monitoring capability:** Helps monitor device readiness (Wi-Fi model)
- **Tough design:** IP55 rating for dust and water resistance ensures reliability in various environments
- **Batteries and pads:** Comes with a 4-year battery and electrode pads for extended reliability
- **User confidence:** Escalating shock energy improves chances of successful defibrillation during emergencies
- **Warranty:** Includes an 8-year warranty for long-term peace of mind
